Rochester Drug Co.	10205029

All pharmacies are set up to order CortiBalm® one tube at a time.

Dear Consumers,

Dr. Dan's CortiBalm is a fairly new product, because of this your local pharmacy might not have it out on their shelf yet or even heard of it before; however, **every pharmacy can order Dr. Dan's CortiBalm in for you.** Most pharmacies can have it in the next day for usually less than \$5 a tube. Please show the pharmacist this paper so he/she can order from their wholesaler.

Dear Pharmacist,

Dr. Dan's CortiBalm is the only lip balm available with 1% hydrocortisone. It is recommended for the treatment of all types of chapped lips. CortiBalm is also great for lips suffering from Accutane side effects, weather conditions, chemotherapy and radiation therapy, or permanent make-up. CortiBalm can be used for many other skin issues such as small patches of dry skin caused by cheilitis or eczema, bug bites and fever blisters (with fever blisters CortiBalm will only help heal the irritated skin quicker it will not help with the virus that causes the blister).

Pharmacy Ordering Instructions

1. Find your wholesaler to the left
2. Enter corresponding order entry number.
It is set up to order 1 tube at a time.
